Dear Mr. ^{Will}Johnson:

Thank you for coordinating the meetings between the California Public Utilities Commission and the National Energy Technology Laboratory. I recognize and appreciate the effort it took to coordinate a meeting of this magnitude. I enjoyed our dinner discussions and interactions at the meeting at the NETL site. It was very interesting and informative to participate in the exchange of information and to gain a better understanding of California's unique energy perspective and policy constraints. Your investment of time and effort on behalf of California's energy needs is to be commended.

I look forward to future opportunities to discuss collaborative efforts as well as NETL's research capabilities. Please do not hesitate to contact me or my staff if you need information or assistance.

Sincerely,

A handwritten signature in cursive script that reads "Carl".
